II. SCOPE OF WORK

1. The State shall submit a program containing the aforementioned project to FHWA with the recommendation that it be approved for construction.

a. If such project is approved for construction by FHWA and the funds are available for construction, the City will and does hereby designate the State as authorized agent for the City. The State hereby agrees to be authorized agent for the City, and with the aid and consent of the City and the FHWA will proceed to advertise for, receive and open bids, and subject to the concurrence of the City and the FHWA, enter into a contract with a firm on behalf of the City to whom the award is made for the construction of the project; such project to be performed, completed, accepted and paid for in accordance with the instructions and requirements of the City and the Standard Specifications for Road and Bridge Construction of the Arizona Department of Transportation. The State will enter into a Project Agreement with FHWA on behalf of the City covering the work embraced in said construction contract and will request the maximum federal funds available, including construction engineering and administration costs. Should costs exceed the maximum federal funds available, it is understood and agreed that the City will be responsible for any overage.

b. Should unforeseen conditions or circumstances increase the cost of said work required by a change in the extent or scope of the work called for in this agreement, the City shall be obligated to incur and will pay for said increased costs.

2. Prior to the solicitation of bids, the City shall deposit funds with the State in the amount determined to be necessary to match federal funds in the ratio required.

3. The City shall acquire the necessary right-of-way and hereby certifies that all necessary rights-of-way have been or will be acquired prior to advertisement for bid.

The City shall remove from the proposed right-of-way all obstructions or unauthorized encroachments of whatever nature, either above or below the surface of the roadway, and hereby certifies that all obstructions and encroachments have been or will be removed therefrom, prior to the start of construction.

5. The City shall not permit or allow any encroachments, except those authorized by permit, upon, or private use of, the right of way. In the event of any unauthorized encroachment or improper use, the City shall take all necessary steps to remove or prevent any such encroachment or use.

6. Upon completion of construction, the City shall provide for, at its own costs and as an annual item in its budget, proper maintenance, including, but not limited to, traffic signals, signs, islands curbs and markings necessary for the purpose of regulating, warning and guiding traffic, all in accordance with the requirements of the current edition of the Manual on Uniform Traffic Control Devices for Streets and Highways.

7. The City will complete the project in accordance with approved plans and specifications and the requirements of the relevant State and federal statutes, rules or regulations. In the event the City fails to comply with the plans, specifications or any relevant State or federal statutes, rules or regulations, the City shall hold the State harmless from any claims or costs incurred by the State as a result of the City's failure to comply.

8. The City will provide personnel to administer and supervise construction. The FHWA will participate in the cost of construction supervision provided by the City at the pro rata established in the Project Agreement for up to 15 percent (15%) of the cost of construction. Construction supervision costs not participated in by FHWA shall be borne by the City.

It is understood and agreed that the State's participation is confined solely to securing federal aid; that any damages arising from carrying out, in any respect, the terms of this agreement or any modification thereof, shall be solely the liability of the City and that the City hereby agrees to save and hold harmless and indemnify from loss the State, any of its departments, agencies, officers or employees from any and all cost and/or damage incurred by any of the above and from any other damage to any person or property whatsoever, which is caused by any activity, condition, or event arising out of the performance or nonperformance of any provisions of this agreement by the State, any of its departments, agencies, officers and employees, the City, any of its agents, officers and employees, or any of its independent contractors. Therefore, City agrees to furnish and provide the difference between the total cost of the work provided for in this agreement and the amount of federal aid received.

3. This agreement shall remain in force and effect until completion of the work; provided, however, that any provisions in this agreement for maintenance shall be perpetual, unless assumed by another entity.

4. This agreement shall become effective upon filing with the Secretary of State.
